By letter 7/7/75 to the Honorable Frank Church, we noted that the Senate Select Committee had in its possession certain materials, which were compiled by the Commission on CIA Activities Within the United States, for the preparation of its report to the President, which materials most probably contained information regarding FBI operations of the utmost sensitivity. In order to avoid any inadvertent compromise of such information, we requested an opportunity to meet with Senators Church and Tower at the earliest convenience to discuss areas of this Bureau's activities which might warrant special consideration. Senator Church agreed that the above matter would be discussed with Director Kelley at the latter's appearance before the Executive Session of the Senate Select Committee meeting scheduled for 7/16/75.

For your additional information, this Bureau had earlier ascertained that the Senate Select Committee has had access to a 693-page document prepared by CIA listing instances wherein CIA believed its operations may have exceeded its mandate. A review of this document by Bureau personnel indicated that some of these operations involve matters involving this Bureau of an extremely sensitive nature. In response to a request of CIA for copies of pertinent material contained in the above 693-page document, CIA on this date furnished copies of the material requested.

3 JUL 22 1975

In anticipation of the Director's appearance before SSC on 7/16/75, the above material furnished by CIA consisting of approximately 174 pages was reviewed. This material is found to contain numerous references, in sanitized form, to

Dear Mr. Elliff:

Your letter of July 16, responding to mine of July 15, was, as you may recall, hand-delivered to me by Mr. Dick at 12:45 today. I understand that your interpretive amplification is generally shared by Mr. Schwarz.

We are studying the suggestions you have made; in the meantime, of course, we are prepared to proceed in accordance with the provisions of the July 15, letter.

Set out below is information concerning an interview of FBI SA William D. Campbell by SSC Staff Members. Campbell is currently assigned to FBI Headquarters. The details of the interview are as furnished by Campbell.

On advance notice from Mr. Michael Epstein, SSC Staff Member, Campbell was advised that he was to be interviewed at 11:00 a.m., June 27, 1975, in the SSC offices. Campbell was informed by the Legal Counsel Division of the FBI that he was being released from any applicable employment agreement for purposes of the SSC interview concerning the former FBI investigations of Martin Luther King, Jr., Stanley David Levison and the Southern Christian Leadership Conference. It was explained to Campbell that he had a right to counsel; however, the FBI was unable to provide private counsel. Campbell was also told that there were certain privileged areas concerning which he would not be required to answer questions. These areas concerned information which might divulge the identities of FBI sources; information relating to sensitive methods and techniques; information which might adversely affect ongoing FBI investigations; and information which had originated with other agencies, including foreign intelligence agencies. Campbell was informed that if a question arose during the interview in one of these areas, he had the privilege, before replying, of consulting with an

RE: INTERVIEW OF FBI SA BY SSC

Campbell advised he was on a squad in the security area, that his Supervisor was E. H. Belter and that the Security Coordinating Supervisor was L. W. R. Oberndorf, now deceased.

Epstein then asked that they get to the point and inquired of Campbell as to when he had heard about the King case. Campbell responded that sometime early in 1964 he heard of the case and recalled it was shortly after the assassination of President Kennedy, and King had been named Man of the Year ("Time" Magazine), that Campbell became knowledgeable under the following circumstances. Campbell was summoned to the office of the SAC either by a fellow SA, Bill Bergeron, or by Supervisor Belter, specific individual not recalled. Present in the office was the SAC at the time, Marlin Johnson, the then FBI Assistant Director William C. Sullivan, Bergeron and probably several others, names not recalled. The following was related by Campbell in response to Epstein's questions concerning what took place at the conference.

After some opening remarks by the SAC, Sullivan advised that he did not want any of the information they were to discuss to leave the room. Sullivan said that he had information indicating that King was associating with communists and that it was possible that King's movement was being infiltrated. As a result, Sullivan said he wanted a technical installation on King in an effort to verify this information.

At some later date, Campbell was assigned to monitor the technical installation on King in which a radio transmitter was used. He could not recall whether the equipment was signed out to him but he did take the equipment home and on a Sunday afternoon he took a bus to Union Station.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SEC

He walked around for a short time and then went by cab to the Willard Hotel and checked in under an assumed name (name not recalled). These actions were taken by him as a security precaution. He did not recall who made his reservation at the hotel. The first night King did not enter the room which Campbell was monitoring. Campbell could not recall the names of the individuals who occupied the room he was monitoring but did recall that they were associated with the King party. The next day, Campbell and a fellow SA, John Borys, moved to a different room. He could not recall how the arrangements for the move were made.

Campbell and Borys monitored King for about two days, stayed one extra day at the hotel and then checked out. Either Campbell or Borys remained in the room at all times. One of them would take the logs and tapes out of the hotel each day and turn them over to someone from WFO, details not recalled. At no time did Campbell ever enter any room in the hotel that was occupied by King or any member of King's party. The tape recorder they utilized was manually operated and they attempted to run it at all times when someone was in the room being monitored. Campbell knew of no physical or photographic surveillance on King during that time. Campbell also advised that he could not recall any instructions concerning listening only to certain types of conversations.

Epstein inquired as to whether Campbell kept a card at WFO showing his location. He responded that it was the normal practice to place a card in the usual repository when one was away from the office. In this particular case, if Campbell did leave a card, he would have probably placed a notation on it such as "Special - See Supervisor Belter for contact."

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

In response to direct questioning, Campbell advised that he had never seen any paper (memoranda, etc.) dealing with this case other than the logs previously mentioned.

Epstein inquired as to whether Campbell had ever seen the tapes again after he had departed the hotel. Campbell advised that sometime later, possibly one or two months, he was asked to review the tapes and logs in an effort to obtain additional information. He did this at the FBI Laboratory and was assisted by SA John Matter, retired, in the technical enhancement techniques, such as filtering. Campbell was not directed to concentrate on any one part of the tapes but reviewed all of them. He did not type any of the information overheard and if any such typing was done, it was probably done in the Intelligence Division. Campbell has not seen the tapes since that time.

On Epstein's inquiry, Campbell advised he first heard about the planned interview of him from SA Paul V. Daly of the FBI's Legal Counsel Division and did not discuss the King case with Bergeron, Matter or Borys after that contact. Campbell did not know whether or not the tapes are still in existence.

Miss DeOreo inquired as to whether it was the normal practice to erase tapes. Campbell answered that in this type of an investigation he was sure only new tapes were used. He explained he was certain that tapes were new when he found them still wrapped in cellophane and they had the appearance of new tapes. She also inquired as to how he secured the key for the second room in the hotel and whether he had to re-register. He answered that he did not recall but felt certain he did not re-register and that some other SA from WFO probably obtained the key for him. During the

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

monitoring, no persons other than Campbell and Borys entered the monitoring room. Additional responses to questions from Epstein were as follows. Campbell utilized only one radio receiver and listened to only one radio microphone. He could not recall if there were any others in use. He and Borys took turns listening to the transmitter. Campbell did not remove the transmitter when he left the hotel as he never entered any of the rooms assigned to the King party. Campbell did not know any details concerning Mr. Sullivan's remarks about King's association with communists. Campbell did not attend all the meetings at WFO concerning the King installation. It was his best recollection that the monitoring was done in rooms one floor above the rooms occupied by the King party.

At the end of the interview, Epstein indicated he had one final question which was, as best Campbell could remember, "Is there anything else about this case that you know that has not come out because I did not ask the right question or did not ask a question in the right way?" Campbell replied that he felt that Epstein had done a good job in asking the questions.

NOTE:

Assistant Director Mintz briefed Campbell prior to his interview. Campbell was accompanied to the SSC offices by Supervisor S. F. Phillips of the Senstudy 75 Project but Phillips was not called upon for any consultation.

Epstein then stated lets get to the point. When did you hear about the King case. I responded that sometime early in 1964 - recalled since it was shortly after President Kennedy was shot and King was named man of the year - I was summons to the SAC's office either by my associate Bill Bergeron or my supervisor Mr. Belter not specifically recalled. The SAC, Marlin Johnson, Assistant Director William Sullivan, Bergeron and probably several others not recalled were in attendance. The following is a narrative of information I furnished in response to Epstein's questions.

The SAC made several remarks and Assistant Director Sullivan then stated that he did not want any information discussed to leave the room. Sullivan stated he had information that indicated King was associating with communists and it was possible his movement was being infiltrated. Sullivan said he wanted a technical installation on King in an effort to verify this information.

At some later date I was assigned to monitor the installation which was a radio transmitter. I could not recall if the equipment was signed out to me or not but I took the equipment home and on a Sunday afternoon I caught a bus to Union Station, I walked around for a short time and then by cab went to the hotel and checked in under an assumed name (name not remembered). I did not recall who made my reservations. The first night King did not enter the room we were monitoring. (I did not recall the names of individuals who occupied room but they were associated with King party.) The next day we (John Borys of WFO and myself) moved to a different room. I could not recall how the arrangements for the move was made. We then monitored King for about two days, stayed one extra day at the hotel, and checked out. Either Borys or myself stayed in the room at all time. One would take the logs and tapes out of the hotel each day and turn them over to someone from WFO (details not recalled). At no time did I ever enter any room in the hotel that was occupied by King or any member of his party. The tape recorder was manually operated and we attempted to run it any time someone was in the room. I know of no physical or photographic surveillance on King during this time. I had no instructions that I can recall concerning only listening to certain types of conversation.

Epstein asked if I kept a card at the office showing my location. I responded that it was the normal practice to place a card in file when one was away from the office. In this case, if I placed a card in file I probably would place a notation like "Special - See Supervisor Belter for contact."

I had never seen any paper, memos, etc. (other than logs) dealing with this case.

Epstein asked if I ever saw the tapes again after departing the hotel. I stated that sometime after (possibly one or two months) I was asked to review the tapes and logs in an effort to obtain additional information. I did this at the FBI Laboratory and was assisted by SA John Matter, retired, in the technical enhancement techniques such as filtering. I was not directed to concentrate on any one part of the tapes but reviewed all of the tapes. I did not type any of the information and if it was typed it was probably typed in the Intelligence Division. I have not seen the tapes since that time.

I first heard about my interview from Mr. Daly of the Legal Division and did not discuss this case with Mr. Bergeron, Mr. Matter or Mr. Borys after that contact. I do not know if the tapes are still in existence.

DeOrzo
~~Dorio~~ asked if it was the normal practice to erase tapes. I stated that in this type investigation I was sure only new tapes were used. I was certain the tapes were new if they were still wrapped in cellophane and they had the appearance of new tapes. She also asked how I got the key for the second room at the hotel and did I have to re-register. I stated, I did not recall but felt sure I did not re-register and some agent from WFO probably got the key to me. No other person entered the rooms except Borys and myself where the monitoring was taking place.

Other responses to questions from Epstein were: We only had one radio receiver and only listened to one radio microphone, I could not recall if there were others. Borys and myself took turns listening to the transmitter. I did not remove the transmitter when I left the hotel as I never entered any of the rooms assigned to the King party.

One final question from Epstein. Is there anything else about this case that you know that has not come out because I did not ask the right question or asked a question in the right way. I advised I felt he had done a good job in asking the questions.

Additional answers to questions. I did not know any details concerning Mr. Sullivan's remarks about King's association with communists. I did not attend all of the meetings at WFO concerning the King installation. My best recollection was that the monitoring was in rooms one floor above the rooms occupied by King.

replying, of consulting with an FBI representative who would accompany him to the interview. The representative would not be present during the actual interview but would merely be available nearby in the event consultation was desired.

The details of the interview, as voluntarily furnished by Conrad, are as follows.

Conrad was interviewed in SSC quarters for the approximate period 10:10 a.m. to 10:45 a.m., July 9, 1975, by SSC Staff Members Michael Epstein and Mary DeOrco. No mention of Conrad's rights was made. The following details are not necessarily in chronological order.

Conrad was questioned concerning his career in the FBI and the positions which he held. He replied that he entered the FBI in 1934 and was assigned to the Laboratory where he spent his entire FBI career. During the 1940's, he was placed in charge of the Radio Engineering Section (RE). In 1955, he became the Number One Man, the equivalent of being the Deputy AD in the Laboratory. In 1961, he was elevated to the position of AD, which he held until his retirement in mid-1973.

Conrad was queried as to whether the Laboratory was broken down into various sections at the time he was AD. He responded that there were four sections in the Laboratory: Document, Physics and Chemistry, RE, and Cryptanalysis-Translation. He was asked as to whether the sections were further broken down into units and was asked for any such specific breakdown in the RE. His answer was that while there were unit breakdowns, he did not recall the specific breakdown within the RE. He was asked as to the basis for unit breakdowns and advised it was based upon sensitivity and expertise of the work; both factors entered into consideration with the greater weight placed upon the expertise factor.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI AD BY SSC

Conrad was told that the SSC was focusing on an allegation that some tapes were made of a conversation of Martin Luther King, Jr., and that these tapes were mailed outside of the FBI. Conrad was also told that the SSC had been advised that Conrad had been requested to make copies of such tapes for the indicated purpose of mailing outside the FBI. Conrad was then asked what he knew about this matter. His answer was that he did not know or recall anything that would fit the description above. Conrad asked Epstein if the latter could indicate a time frame which might assist Conrad in his recall. Epstein said they were referring to the early 1960's, after which Conrad responded that that was a long time ago and Conrad was just unable to recall anything on the allegation. Conrad was asked if he recalled making copies of a tape dealing with King without knowing it was for the purpose of the tapes being mailed. His response was "No."

Conrad was asked if he had known that the FBI had technical coverage of King. His response was, "Not specifically." He was then asked what he meant by "specifically" and this point was pressed by the interrogators. Conrad responded that he recalled that FBI Director Hoover had announced publicly that the FBI had in effect a number of wire taps, thus indicating that a number of FBI subjects who were under investigation were thus covered through such means. However, Conrad did not know or recall that King was actually one of the subjects of such coverage.

Conrad was asked whether he recalled, aside from the King case, whether any recordings were sent to the Laboratory for processing or copying when they related to civil rights matters. His response was, "No."

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI AD BY SSC

Conrad was asked who was in charge of the RE and responded by asking for time frame. He was told the reference was to the early 1960's and Conrad responded that, because of the turnover of personnel, he could not respond to any specific times. He was then asked who was in charge at the time Conrad retired in 1973 and he gave the name of Wayne Bradley (retired). He was asked how long Bradley was the Section Chief of RE and Conrad answered that he could not remember.

Conrad was asked whether it was common to make copies of tapes derived from technical coverage. He responded that it was done on occasion and explained that tapes would sometimes be sent to the Laboratory in order to obtain more coherent copies through a process known as filtering. In such instances, filtered copies were produced in the Laboratory. When asked where this was done, Conrad said it was done in the RE. He was asked whether all tapes derived from technical coverage were sent to the Laboratory and his response was "No." He was asked if all technical coverage tapes were maintained by the Laboratory and his response was "No." When asked under what conditions they would be sent to the Laboratory, Conrad advised that they would be sent to the Laboratory when it was necessary to have them filtered. In response to inquiry as to what the mechanics were of getting the tapes to the Laboratory, Conrad said there was no single procedure. They might be sent by a field office directly to the Laboratory with a request for assistance in making the tapes more readable; or, the assistance of this nature might originate with an FBI Headquarters official.

Conrad was asked for the detailed mechanics of the routing requests for filtering and he responded that he did not see how this bore on the King matter. He was then asked whether a record was always made of requests for filtering,

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI AD BY SSC

and he responded that, if the request was from the field, there would normally be a cover communication which would be the permanent record. However, if the request was from a Headquarters official, there might not always be a written record. He was asked how the material would get to a specific person in the Laboratory and he responded by saying that it might be routed directly by the sender or routed to the Laboratory generally, and then from the central routing point in the Laboratory it would be sent to either RE or the specific person who would handle the matter. Conrad was asked how a router would know where to send such an item and he responded that there would be information in the cover communication which would assist in this routing.

Conrad was asked whether it was necessary to account by inventory for all tapes used in making copies of tapes. He answered that it was not so necessary because the volume was so small. He was asked if he knew whether any record or memorandum was made of such a request in connection with the King case and responded that he did not know; that he had no recollection. He was asked if it was possible that such a written record might exist and if so, would it not be in FBI files? He answered that he did not think he could contribute to this question as almost anything is possible. He added, however, that he had no knowledge or recollection of such a record or any knowledge of its existence in FBI files.

He was then asked if he had ever heard of mailings of tapes involving King. He replied that he had seen something in a newspaper within the past year or two indicating such an allegation. His recollection was that the news account was of a copy of a tape being mailed to Mrs. King, and that Mrs. King had denied receiving same.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI AD BY SSC

Conrad was asked what would be done in the Laboratory if someone was asked to make an examination and the examiner thought it was improper or had other questions about the matter. Specifically, Conrad was asked if there was anyone that the examiner could go to in such an event. Conrad responded that there, of course, was a recourse for the examiner. He could take the matter up with his Section Chief, or with his AD, or, if he chose to, he could address the matter to Director Hoover. Conrad was asked whether he had been consulted by a Laboratory employee as to the propriety of making copies of King tapes. He responded that he absolutely was not so consulted.

Conrad was then asked whether a John Matter was an employee of the Laboratory when Conrad was there. Response was "Yes." Conrad was asked what Matter's expertise was and he responded that it was basically telephone security. When asked whether that included wire tapping, that is, whether Matter was qualified to perform wire tapping, the answer was "Yes." A similar answer was given to the question as to whether Matter was qualified to listen to tape recordings and attempt to filter them.

NOTE:

Briefing of Conrad, prior to interview, was conducted by AD Mintz, Legal Counsel Division; and S. F. Phillips of INTD, who accompanied Conrad to the SSC offices. It was not necessary for Conrad to consult with Phillips at any time during the interview. Debriefing of Conrad as reported herein was by Phillips.

This memorandum is to advise of testimony by Postal Inspector John D. Tarpey on 6/10/75 before the SSC.

On 6/13/75, Inspector John D. Tarpey confidentially furnished Liaison Officer L. A. Crescioli the following information:

Tarpey testified before the SSC on 6/10/75 for a period of approximately two hours. At the outset of his testimony, Tarpey read a prepared statement in which he informed the Committee that although he wished to cooperate fully he was producing, upon advice of the U. S. Department of Justice, only six internal U. S. Postal Service documents which predate Tarpey's investigative files and which concerned U. S. mail openings in New York City. The six documents turned over to the Committee do not contain any information relating to the FBI; instead, they pertain to mail openings by CIA in New York City. The SSC accepted Tarpey's statement and did not press him for any additional documents. However, a SSC staff representative, (FNU) Wallach, inquired of Tarpey as to whether or not he knew of mail openings in Los Angeles by FBI Agents Ron Mascar (phonetic) and (FNU, but possibly William) Miller.* Tarpey replied that he was not knowledgeable on this matter and never heard of the above two Agents. (Tarpey requested that the above information concerning the two Los Angeles Agents be carefully handled by the FBI since he fears that Wallach may have posed this as a test question for Tarpey).

Jackson Agent Crescioli also contacted Mr. Ron D. Jackson, Assistant Chief Inspector, U. S. Postal Service, on 6/13/75 and confidentially learned the following information:

Re: John D. Tarpey
Assistant Chief Inspector,
Office of Criminal Investigations,
U. S. Postal Service, Appearance

(SSC) 6/10/75

Representatives of the SSC have recently requested the Inspection Service of the USPS to make available for interview the Inspector in Charge of the Boston Post Office. According to Jackson, the Inspector in Charge of Boston has been there for many years and is most knowledgeable about past and present activities in that office. In the opinion of Jackson, the representatives of the SSC will soon travel to Miami, Florida, to inquire into the activities of the Postal Service in that area.

The above matter has been coordinated with SA P. V. Daly of the Legal Counsel Division.

ALL INFORMATION CONTAINED

Set out below is information concerning an interview of FBI SA John R. Borys by SSC Staff Members. Borys is currently assigned to the Washington Field Office (WFO) of the FBI.

On advance notice from Mr. Michael Epstein, SSC Staff Member, Borys was advised that he was to be interviewed at 9:00 a.m., July 7, 1975, in the SSC offices. Borys was informed by the Legal Counsel Division of the FBI that he was being released from any applicable employment agreement for purposes of the SSC interview concerning the former FBI investigation of Martin Luther King, Jr. It was explained to Borys that he had a right to counsel; however, the FBI was unable to provide private counsel. Borys was also told that there were certain privileged areas concerning which he would not be required to answer questions. These areas concerned information which might divulge the identities of FBI sources; information relating to sensitive methods and techniques; information which might adversely affect ongoing FBI investigations; and information which had originated with other agencies, including foreign intelligence agencies. Borys was informed that if a question arose during the interview in one of these areas, he had the privilege, before replying, of consulting with an FBI representative who would accompany him to the interview. This representative would not be present during the actual interview but would merely be available nearby in the event consultation was desired.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

A: I am a recruiter for the FBI.

Q: At WFO?

A: Yes.

Q: How long have you been so engaged?

A: About 3½ years.

Q: Were you on Mr. Belter's squad at the time you monitored Dr. King?

A: Yes.

Q: Where did that occur?

A: At the Willard Hotel.

Q: Have you done other monitoring before?

A: Yes.

Q: Is this the only monitoring work you have done outside of the Washington Field Office?

A: Yes.

Q: Do you recall when this occurred?

A: I seem to think it was shortly before President Kennedy's assassination in 1963.

(There followed at this point and at later times during the interview questions in an attempt to jog my memory as to the exact date of the monitoring. I appealed to my

RE: INTERVIEW OF FBI SA BY SSC

recollection that Robert Kennedy's tenure as Attorney General was from 1961 to 1964, and I had to admit the monitoring of Dr. King might have occurred sometime after President Kennedy's death. I pointed out that I had nothing with which to refresh my memory and only the incident of President Kennedy's untimely death tended to fix the date of our activities as taking place close to the time of that death.)

Q: Have you ever worked on cases related to demonstrations?

(It was explained that this question was asked in order to help me try to fix the date of our monitoring by relating it to demonstrations and the date of their occurrence.)

A: I have never worked matters relating to demonstrations. Furthermore, I had had no special interest in the activities of Dr. King or the S.C.L.C. (Southern Christian Leadership Conference). Since I have little or no recollection of demonstrations in which Dr. King might have been involved, this method of trying to jog my memory would seem to be of little help.

Q: Was the weather at the time of the monitoring cold or warm?

A: I seem to recall that the weather was warm, but I am not sure.

Q: Were you told of the purpose of monitoring Dr. King?

A: I am not sure. So much of this is now a gray area to me. I do seem to recall asking for the reason and being advised that this was an internal security

RE: INTERVIEW OF FBI SA BY SSC

matter and that there was some indication that Dr. King was being influenced by persons who leaned toward the left.

Q: Were you told that such people might be with Dr. King?

A: I do not recall. I simply have the recollection that our purpose was to determine whether he was being so influenced. I hasten to admit, however, that I am very hazy on this and it may very well be that I learned of these indications through conversations even after the occurrence of our monitoring. I cannot be more specific in this regard.

Q: Who was with you at the time of the monitoring?

A: Bill Campbell.

Q: Was anyone else involved?

A: I believe I did meet Bill Bergeron in the lobby of the hotel. No one else to my recollection.

Q: Did you sign out from the office to go to the hotel?

A: This would be the customary procedure, but whether it was done in this instance I do not recall.

Q: Did you handle any equipment, i.e., take any to the hotel?

A: No. My recollection is that the equipment was already set up in the room we occupied.

Q: Did you register in the hotel?

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

A: I recall the registration desk, therefore, perhaps I did, but I am not sure.

Q: Did you use old or new tapes?

A: I do not recall.

Q: What time of day was it?

A: I seem to recall that it was at night. I feel a good guess might be between 8:00 p.m. and midnight, or thereabouts.

Q: Did you monitor for only one night?

A: That is my recollection.

Q: Did you and Bill Campbell relieve each other?

A: I do not recall this. It seems we both monitored at the same time.

Q: Was Dr. King in the room being monitored?

A: I associated voices I heard in the room to be that of Dr. King.

Q: Were there other people in the room being monitored?

A: I again associated voices heard with Mr. Abernathy, another male from Baltimore whose name I do not recall, and I believe the voices of two women.

Q: Was there any visual monitoring?

A: Not to my knowledge.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

Q: Was this the only monitoring being done at this time?

A: Yes, as far as I know.

Q: Did you make a log while monitoring?

A: One could only take down very sketchy notes.

Q: Did you thereafter go over the tapes and make up logs?

A: Yes.

Q: Where was this done?

A: In an interview room of WFO or some room set up for that purpose.

Q: Regarding the time this monitoring took place, did you leave the hotel for your home when finished?

A: Normal procedure would have been to return to the office. I believe I returned to the office.

Q: Would it not be unusual for you to be returning to the office, say at 1:00 a.m.?

A: No. I have done this on several occasions.

(Purpose here it seems was to jog my memory as to the exact time of monitoring.)

Q: Were you involved in any of the reports or paper work connected with this matter?

A: No.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

Q: Did you know to whom the case was assigned?

A: No.

Q: When you monitored in other matters, was it not customary to know the Agent to whom a case was assigned? If so, would you not then relate a conversation overheard to that Agent?

A: In the normal course of events, this would be true, and the Agent to whom the matter was assigned would be so advised if the overheard conversation was urgent in nature. In the matter of Dr. King, however, I did not know the Agent to whom the case was assigned.

Q: When you completed this monitoring, to whom did you give your logs?

A: I do not recall; normal procedure would have been to give them to my immediate supervisor, Mr. Belter.

Q: Getting back to the hotel, did you and Mr. Campbell leave together?

A: I do not recall. In all probability, we did.

Q: Did you carry the tapes and notes back to the office?

A: I do not recall. Either Mr. Campbell or I did, or we both may have. If I did carry them, I normally would have turned them over to the custody of Mr. Belter.

Q: You had no responsibility in regard to the equipment, i.e., setting up, dismantling it, or returning it?

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FBI SA BY SSC

A: That is correct. My function in this matter was very limited and I recollect I was simply to go, monitor, and return.

Q: Who gave you this assignment?

A: I believe it was Mr. Belter.

Q: When he gave it to you, was it done while you were alone or was someone else present?

A: I do not recall. I feel it occurred in Mr. Belter's office which did not offer a good deal of privacy. If anyone else was present, however, it was probably Mr. Campbell.

Q: Did you know the location of Dr. King's hotel room in regard to your location at the hotel?

A: I do not recall, I do not think so.

The interview ended with some questions in an attempt to refresh my memory as to the actual date of the monitoring. In substance, this is covered above.

NOTE:

Supervisor Paul V. Daly handled Legal Counsel Division briefing of Borys prior to interview, and Borys was accompanied to the SSC offices by Supervisor S. F. Phillips of the Senstudy 75 Project. Phillips was not called upon for consultation at any point during the interview.

Q: You were assigned to Mr. BELTER's squad?

A: I have been assigned to several security squads at WFO and have been moved back and forth from Mr. BELTER's squad to other squads on several occasions.

Q: Was this in the nature of formal transfers or just temporary moves without written transfers?

A: To the best of my recollection, paper was cut at WFO each time I moved from one squad to another.

Q: What is the nature of your work now?

A: I am a recruiter for the FBI.

Q: At WFO?

A: Yes.

Q: How long have you been so engaged?

A: About 3½ years.

III. THE MONITORING OF DR. KING

Questioning then related to our monitoring of Dr. KING substantially as follows:

Q: Were you on Mr. BELTER's squad at the time you monitored Dr. KING?

A: Yes.

Q: Where did that occur?

A: At the Willard Hotel.

Q: Have you done other monitoring before?

A: Yes.

Q: Is this the only monitoring work you have done outside of the Washington Field Office?

A: Yes.

Q: Do you recall when this occurred?

A: I seem to think it was shortly before President KENNEDY's assassination in 1963.

Mr. Paul Wallach, staff member of the United States Senate Select Committee on Intelligence Activities, telephonically contacted me on 6-18-75 between 2:30 and 3 o'clock P.M., and inquired as to the status of a request by the Committee concerning mail cover information. He asked if I could furnish him a time when he might expect our response to be delivered to him. He pointed out that he had had previous discussions with me and Mr. Shaheen of the Department concerning this matter, and Mr. Shaheen had indicated to him that he could expect the response to have been given to him by this time. Mr. Wallach was informed that a time certain for delivery of a response concerning this request could not be given, and it was explained to him that a vast amount of material was being reviewed pursuant to request of the Senate Select Committee and other committees of Congress and that because of the amount of work involved in all these requests it was not possible to make a judgment as to the date of the response.

Mr. Wallach indicated he felt he had been misled by Mr. Shaheen into believing that he would have a response to his request and that he was going to recontact Mr. Shaheen. He made a general inquiry as to whether one Agent might be gathering all the information and as to whether he might be allowed to come to FBI Headquarters and review what has been gathered to this point. He was informed that all disclosures have to receive proper Bureau approval and that it would not be possible for him to review such information in the absence of such approval. He asked if the Bureau could separate the response by making available immediately portions of the mail cover lists such as the identities of people who were the targets of mail covers in the domestic field. He again was informed that this was not possible in the absence of proper approval. Mr. Wallach stated that he wanted me to know that he was in possession of a list of Bureau mail covers for the past five years which he had been furnished by a source whom he did not identify. He was asked (1) if this list concerned the mail covers in the national security areas and, (2) was it a national list. Mr. Wallach stated it was a national list in the national security areas. He stated he was not sure of its accuracy. He indicated that he would have no reservations about using the list to conduct the Senate Select Committee business and stated that interviews may be conducted based on the list.

He was advised that the list would contain sensitive information which would seriously impair ongoing Bureau investigations. He replied that the names were not classified, and since they were not classified he would have no problem in using the list. It was explained to Mr. Wallach that despite the fact it was not classified the list would be extremely sensitive since it would impair many ongoing investigations and in many instances the very fact that we are interested in an individual indicates that we are in possession of sensitive information concerning that individual. Mr. Wallach pointed out that if this were the case, acknowledging that he had been informed previously that one of the reasons for the necessity for closely reviewing the material to be made available was because of this problem, then the Bureau should come forward with its own list and point out to him which of the names are sensitive and which are not. Mr. Wallach stated that only one or two other people had knowledge of the fact he possessed such a list.

Paul Wallach called O'Connor, but I took the call. Wallach stated that his call to O'Connor was to express his personal concern over O'Connor's questioning his (Wallach's) professional ethics in an earlier telephone conversation with John Elliff of SSC staff. Wallach expressed the hope that Schwarz's conversation with O'Connor in which Schwarz categorically disclaimed that Wallach had made certain specific representations to Paul Daly of the FBI earlier, would put to rest all of O'Connor's concerns vis-à-vis Wallach. (O'Connor's concerns were aroused by my report to him of a Wallach call at about 3:00 p.m. to Daly in which Daly stated that Wallach claimed that he (Wallach) "had the NSC mail covers going back five years" and had received same with names listed from a source that Wallach refused to disclose. Daly further reported that Wallach stated that unless the Bureau was not immediately forthcoming with the SSC's request for the NSC mail covers, he (Wallach) would use the ones in his possession.) I told Wallach that I would convey his expression of concern to O'Connor and that I thought that we should let this conversation serve as the

concluding chapter of an unfortunate series of telephonic exchange. Further, I requested that in the future, and for the good of all parties concerned, he should direct all his requests and inquiries to me.

Leaving that subject, Wallach said he wished "to say some- and that "it was to be off the record, of course"; he proceeded state that, indeed, he does know someone with access to the NSC covers and that that individual had offered him the list just a few days ago, but that for "obviously ethical reasons" he (Wallach) refused the offer. Further, Wallach volunteered that "maybe I could suggest that I had them (the NSC covers)" in his conversation with Daly.

This memorandum records the results of a meeting in the Deputy Attorney General's office on the morning of 7/2/75.

Mr. Paul V. Daly, Legal Counsel Division, and Section Chief William O. Cregar of the Intelligence Division met in the office of the Deputy Attorney General on the morning of 7/2/75. Also present at the meeting were the Deputy Attorney General and Messrs. K. William O'Connor, Kevin Maroney, Michael Shaheen and Robert McDermott, all of the Department of Justice. The purpose of the meeting was to discuss three specific matters the first being the draft letter dated 6/25/75 to the Attorney General from Senators Church and Tower (see memorandum Wannall to Adams captioned as above dated 6/30/75). The second matter discussed was the Task Force concept. The third item was a review by FBI regarding the Rockefeller Commission files (these files constitute 12 legal file draws of documents as well as approximately 40,000 pages of testimony)

LETTER TO THE ATTORNEY GENERAL DATED 6/25/75

A review of this letter was set out in the memorandum Wannall to Adams dated 6/30/75. The Deputy Attorney General found considerable difficulty in understanding paragraph 2 of the 6/25/75 letter pointing out that neither the Department of Justice nor the FBI had entered into any agreement. In view of the ambiguities the Deputy Attorney General found in the letter as well as the lack of any specific agreement entered into with the Senate Select Committee (SSC) by the Department and/or the FBI,

Memorandum to Mr. W. R. Wannall
Re: Senstudy 75

the Deputy Attorney General instructed that the Department prepare a letter over the Attorney General's signature asking for clarification of the 6/25/75 letter as well as raising the question of any agreement entered into by the Department or the FBI.

TASK FORCE CONCEPT

The Task Force concept is designed to identify various abuses which the SSC desires to investigate in-depth. A member of the intelligence community would be identified to the Executive Branch as a Task Force leader. The purpose would be to permit that Task Force leader to be completely knowledgeable on all available information throughout the intelligence community for a particular abuse. In other words, the White House could look to the Task Force leader as the one person in the intelligence community who would be privy to all information regarding a particular abuse. The Deputy Attorney General had no problem with this concept but did insist that the Task Force leaders should not negotiate directly with their counterparts on the SSC on behalf of the intelligence community for any particular abuse (the White House has insisted on this). The Deputy Attorney General instructed Mr. O'Connor to make this quite clear to Mr. James A. Wilderotter, Associate Counsel to the President, and if Wilderotter insisted on unilateral negotiations between Task Force leaders and the SSC, Wilderotter should be referred to the Deputy Attorney General in order to resolve this issue.

THE ROCKEFELLER COMMISSION FILES

As you know, the President has ordered that copies of the Rockefeller Commission files including testimony be turned over to the SSC. There has been no third agency coordination on the part of CIA regarding what information was turned over to the Rockefeller Commission. As a result

CONTINUED - OVER

Memorandum to Mr. W. R. Wannall
Re: Senstudy 75

of the above, we are not aware what sensitive information involving the FBI has been furnished to the Rockefeller Commission by CIA.

The Criminal Division of the Department has received copies of the entire Rockefeller Commission file plus testimony. The Deputy Attorney General has ruled that these files and testimony cannot be turned over to the FBI in toto until such time as the Criminal Division has ruled on any possible criminal culpability on the part of the FBI. To facilitate the review of the Rockefeller Commission files, the Criminal Division will separate out any information it feels involves any FBI criminal culpability. That portion separated out will be the subject of discussion between the Deputy Attorney General and the Director. The remaining portion of the Rockefeller files will then be turned over to the FBI for review to determine if any of the information contained therein could possibly jeopardize sensitive ongoing investigations or adversely affect the security and welfare of FBI sources mentioned therein.

The Legal Counsel Division is preparing a letter alerting the SSC to the possibility that sensitive information may be contained in the Rockefeller files and requesting that Senators Church and Tower consider a briefing by FBI officials regarding those sensitive areas of concern to the FBI which may be embodied in the Rockefeller Commission files.
